admitted into the United States for the ber 5, 1905, at Portsmouth, N. H. year 1911? (2) What was the amount Russia giving up her holdings in China. recommended and accepted as a fourthof foreign money orders for the same year?

A. (1) Through New York, 637,003; through Boston, 45,865; through Baltimore, 22,866; through Philadelphia, 45,023; through San Francisco, 3,419; through Canadian ports, 81,682; through other ports, 42,720. Total, 878,587. (2) The fiscal year does not end until June 30, 1012. For 1012 the postoffice records show a total of 3,832,318 international money orders, amounting to \$89,558,-

Q. Please explain the meaning of the term "common carrier." W. T. A. We will let Webster do it for us:

"One who undertakes the office of carrying goods or persons for hire and for all persons indifferently. At com-A. Answering the second question, dered, and he is liable for all losses or injuries to the goods except those himself."

Q. (1) Why is gold or silver more valuable than other metallic substances which exist in the same quantity? (2) Please explain the issuance of new gold and silver money by the government.

A. (1) Gold was prized in early times because it was found free, so that it was not necessary to smelt it, and its present value is due to its unalterability, which makes it preferable to other metals for use in jewelry, for coinage, and so forth. Silver has about the same advantages. (2) The coinage is performed at the mints free of charge for those who send bullion to be minted. and the government may also buy gold and silver for coinage purposes, or to keep the gold reserve up to the standard, issuing bonds or notes for the purpose, Q. How long will it take to complete the Pan-American Railway and how many miles have been built?

A. It would not be possible to set a time limit on the completion of the line. The work is being done by the piece. Some sections are under construction by the countries through which the road passes, and others by private capital. New York and Buenos Ayres, 10,301 miles apart, are almost connected by rail now. The estimated Q. Is there any premium on a two total cost of the railway is \$200,000,000. Many gaps in the line are being filled simply by connecting a railroad in one A. If the coin is one issued by the country with that in another, as, for infederal government, and in good con- stance, when the Salvador Railway was

only seventy-five miles away. Q. Please tell me something about Senator Ross of Kansas who voted Johason.

A. Edmund G. Ross was born in Ohio in 1826, was apprenticed to moved to Kansas in 1856, and was there October 28, 1808; June 4, 1900; July 29, elected to the Legislature, editing in the Tribune, the latter the only free State (1) March 25. (2) Saturday, paper in Kansas at the time. In 1862 Monday, Wednesday, Monday, Wednes- Ross enlisted in the Federal army and rose to the rank of major. His term Q. (1) What action has Congress in the United States Senate began in taken on the Reilly bill providing for 1866. His vote against the impeacheight hours' work for postoffice clerks ment of President Johnson deeply rupt motives. He united with the A. (1) The progress of the bill can Democrats at the end of his term and be obtained from the clerk of the House was defeated as their candidate for govof Representatives, Washington, D. Q. Please describe the treatment for Q. (1) Where is St. Paul's Cathe-(2) Describe a postal bank.

A. (1) It stands at the top of Ludgate Hill, London. The first stone was obtained from the spinal cord of an in- sidered the masterpiece of Sir Chris- at once.

topher Wren, the famous English archi-tect. The ground plan is in the shape of a Latin cross, measuring 500 feet from east to west and 280 feet from north and south. The dome is 145 feet in diameter and 370 feet high from the pavement to the top of the cross. This is the third St. Paul's, the first having been destroyed by fire in 1087, after standing for four centuries, and the second, authorized in 1240, was also destroyed by fire, passing out of existence in 1666. (2) Certain postoffices are authorized to accept deposits of a dollar or more from anyone over ten years of age, interest to be paid at the rate of two per cent., no individual's deposit to amount to more than \$500. Deposits may be withdrawn at any time.

Q. (1) Who is State Superintendent of Public Instruction in Oklahoma? (2) Please give an account of the Turkish-Italian war to date. Please give a brief account of the Russian-Japanese war of 1904-1905.

A. (1) Commissioner of Education R. H. Wilson, Oklahoma City. The war began so recently that details of it seem hardly necessary. Italy announced on September 20 that war existed. On October 1, 1911, an Italian fleet bombarded Tripoli and took possession on the 5th. The Turkish fleet was destroyed on the 2nd. Fighting around Tripoli has continued since its capture. Seven Turkish gunboats were sunk on January 13, and the Dardanelles desiring a seaport on the Pacific, refused to withdraw from Amur, China, in 1900, as promised. Relations were broken off in 1993, and in February, 1904, Japan by the committee on instruction, and fected rabbit. The strength of the in- I fired on Russian ships in Chemulpo. Uphold Their Report.

The Commissioners of Assessment submitted to the Town Council Monday night their reply to the criticism of M. M. Stallman, general attorney of the Delaware, Lackawanna and Western Railroad Company, on the awards of damages to property owners, caused by the changes in street grades resulting from the depression of the railroad company's tracks in the Watsessing district. Mr. Stallman expressed the opinion that the damage awards were high, and in the cases of W. B. Conroy, Alfred Johnson and estate of G. Kurtz double damages had been allowed, as they had been previously compensated in an allowance for damages in the matter of opencarry, in all cases within the nature of commissioners, in their reply, say that tions, and when his fixed price is ten- that in regard to the Johnson, Conroy and Kurtz claims they are entitled to the same, as the award of damages in the Q. Is there a Brazilian consul in Gal- which happen in consequence of the act. Willow street opening was for land

Sewer Project Tabled.

A general objection, signed by a number of property owners, was made at the council meeting Monday night to the resolution adopted by the council for the construction of a storm sewer in Broad street from Benson street to the Third river at James street. The objectors said that the service of the sewer would be the carrying off of water from the street and would be of general public benefit and not of particular private benefit to them.

Mr. Murray, in speaking on the objections, said that it may be that some of the objectors were under the impression that the cost of the sewer will fall patricularly on Broad street property owners. The assessment, he said, would be levied on all property benefited and would take in a wide area, and he suggested that it be so explained to the objecting property owners.

On motion of Mr. Sadler the resolution was laid on the table.

Fire Matters.

Chairman Unangst of the fire committee submitted the plans of Architect John T. Capen for the new Montgomery Hose house and the addition to Central firehouse at the council meeting Monday night, and they will be considered at a council conference. The election of Michael Halpin as a

member of Active Hose Company, No. I, and Le Roy Rawson as a member of Excelsior Company, No. 3, were approved by the council. Borden S. Howland, R. L. Maxi and E. G. Lavcock were added to the charter membership. roll of Brookdale Hose Company, No. 5. A bill for janitor's services at Brookdale Hose house took the fire committee by surprise, as it was not aware that the company had a janitor.

Washington Street Paving. Edward S. Black, representing Washington street property owners, presented a petition to the Town Council Monday night for the paving with bitulithic pavement of that street from Thomas street to Franklin street. His petition, Mr. Black said, bore the names of forty property owners along the street, and represented 1,645 lineal feet of prop-

Later on in the evening Mr. Hummel chairman of the road committee, introduced a resolution for the paving of the street as petitioned for.

To Build Grand Stands.

The parade and decoration committee of the centennial committee invite carpenters and builders of Bloomfield who desire to figure upon building two grandstands for the centennial celebration to Ladies' Save Your Combings. Puffs notify Mr. Edward J. Hughes, 269 Berkeley avenue, Bloomfield, secretary jections of weakened poison of rabies not completed until 1710. It is con- of the parade and decoration committee,

THECOUG GUARANTEED SATISFACTORY OR MONEY REFUNDED.

Board of Education.

That the auditorium of the new High School Building will not be in readiness for the banquet that is to be a feature of the centennial celebration, was the reply made Monday night by the Board of Education to Harry L. Osborne, chairman of the banquet committee, who made a formal request for the use of the auditorium.

The board granted the request of the Ladies' Auxiliary of the Town Improvement Association for the use of Berkeley School for Social Centre work.

Application was received for permission to use the Berkeley School Hall for an entertainment to secure funds for the purchase of baseball suits for a school team. It was voted that if the principal were shelled on April 19. (3) Russia, of the school wished the entertainment the board would authorize it.

The following appointments to the town's teaching force were recommended the recommendations were accepted:

Augusta B. Hofman, Trenton Normal School, for grade or primary work; Charles F. Otto, Edinboro Normal School, eighth grade, or principal of the Brookdale School; George W. Bartlett, Oswego, for grammar school teaching; Carl F. Radder of Syracuse University, for high school work.

Miss Emma J. Brownell, Oswego, was grade teacher, and Miss Jeannette Benson of Oswego for eighth-grade work. Miss Nettie Duym, Oneonta, was chosen for primary work, and Miss Clara L Carruth of Mt. Holyoke College for high school work. Walter R. Douthett, Ursinus College, was also accepted for high school work.

Three Montclair Normal School graduates were on the list of candidates accepted, as follows: Miss Leah M. Griffifth, for grammar school work, and Miss Edna L. Coney and Miss Alice C. Lewis for primary work.

It was voted to pay the expenses for two weeks for a helper for Herman G. Blaschke, janitor of the Brookside School, who is in ill health.

Lackawanna Place.

Monday evening, May 6, was the date for hearing objections to the resolution adopted by the Town Council for the paying of Lackawanna place. Clerk Davis announced that he had received two communications in regard to the same from Blanchard & Price, owners of property along the street to be paved. In one of them Messrs. Blanchard & Price petitioned the council to use bitulithic pavement on a concrete base by the board. in the paving of the street. The other communication was of a more general character and stated that it was noted with pleasure that the council intended to pave Lackawanna place and have a concrete sidewalk and curb laid. The letter then went on to say: "We would like to call your attention to the fact, first, that this street should have sewer. water, gas and house connections put in before the pavement is laid. This will, of course, save tearing up the street and sidewalk when they are made, as they would have to be as soon as there was

any building on the street. "The street and paving should, of course, be graded to correspond to Glenwood avenue and Washington street, and the sidewalk also should be graded to correspond to the Glenwood avenue side-

"If any strangers ever came to Bloomfield, they wouldn't need any celebration to let them know that Bloomfield was 100 years old. All they would have to do would be to walk down Glenwood avenue and notice the broken condition of the sidewalks and curbs. You ought to have new concrete sidewalks and curbs put down on Glenwood avenue to correspond with those on Lackawanna place, at the same time the Lackawanna \$82 already available, in order that picplace sidewalks are put down.

"If the town officials have authority, without the consent of the property holders, to put down a sidewalk in Lackawanna place, they certainly should have the same authority in Glenwood avenue. It is one of the principal streets of the town, and the present sidewalks are a disgrace."

The resolution for the paving of the street was referred to the ordinance committee for the preparation of an or-

Finger Cut off by Saw.

Myron Van Riper, former captain of Phoenix Hose Company, No. 1, had the index finger on his left hand cut off by his letter, was about one thousand feet a circular saw at which he was working in length, and there is a bluestone side-Tuesday afternoon. Van Riper is in the employ of the Andrew Doremus ception of about four hundred feet. It Building Company of Glen Ridge, and the accident happened in their plant. Dr. James S. Brown dressed the injury in the Mountainside Hospital.

New Principal Appointed.

The recommendation of the teachers' committee of the Glen Ridge Borough Board of Education that Earl W. appointed principal of the Borough High School was adopted at a meeting of the Board of Education Tuesday night. Mrs. Louis Hinrich, chairman of the teachers' committee, also recommended that Miss Leola S. Jermy of Yonkers and Miss-Helen Treadway of Ridgefield Park be engaged as grade teachers, These recommendations were accepted

Thomas L. Masson, president of the board, presided. Dr. H. Crittenden Harris, chairman of the buildings, house and grounds committee, presented a resolution providing that the contract for installing the heating plant in the new primary school in Sherman avenue be awarded to John H. Cooney of Harrison. The resolution was carried. It was voted to award the contract for heat regulators for the new school to the Standard Regulator Company. The contract for wiring and telephones was awarded Eugene A. Mortier of this

Dr. Harris explained that the new primary building will be at Bay and Sherman avenues. The building committee reported that the Central School fire apparatus had been examined within the past month and found to be in

good shape. On recommendation of the finance committee, \$30 was appropriated to cover the expense of cooking, sewing and manual training supplies for the remainder of the year. The sum of \$20 was voted for educational supplies. B. Frank Carter, as chairman of the art committee, asked for \$20 to add to tures might be purchased for the assembly hall and each of the five classooms in the Linden Avenue School. Six pictures will be secured, one for each room, including the hall.

For the textbook committee, Mr. Carter announced sixty essays had been submitted by pupils competing for a prize offered by the Woman's Club.

Monroe Place Improvement.

George E. Harker of Monroe place in a letter to the Town Council read Monday night, requested the council to adopt a resolution for a bluestone sidewalk and curb on both sides of Monroe place from Park place to Spruce street. Monroe Place, Mr. Harker said in walk its entire length with the exalso has a bluestone curb with the exception of about 280 feet. A large majority of the property

owners in the street, Mr. Harker said, desired that the sidewalk and curbing be completed, and that blue stone be used to correspond with the present sidewalk and curb. The petition was referred to the sidewalk committee."

A Belleville Move.

In an effort to defeat the proposed plan of Montclair, East Orange and Orange to locate a sewage disposal plant Anibal of Seneca Falls, New York, be on the border line of Belleville and Bloomfield an effort is being made to secure the condemnation of the land for use as a part of the county park system. This suggestion first came from the Men's League of the Reformed Church, Belleville. The Belleville Town Council has taken the matter up, and the joint committee representing Belleville, Bloomfield and Nutley will be asked to.

Councilman George Byron suggested that the Essex County Park Commission be asked to condemn the land in the vicinity of the proposed plant and to purchase it for Belleville's park. It was thought, however, that more effective action could be had if the joint committee took the matter up. Mr. Byron said he would propose that petitions be circulated throughout the town for condemnation proceedings. Former Freeholder John H. Waters is also working to have action taken along these

It was rumored that some Belleville men-were speculating in the land deal with Montclair for the Imhoff tank site. Councilman Henry McCormick is authority for the statement that George L. Crooks is acting as agent for Mont-

Newark Industrial Exposition.

All is in readiness for the Newark Industrial Exposition, the wheels of which will be set in motion Monday evening, May 13, by President Taft. Newark claims that the display of its.

products to be held for two weeks in the First Regiment Armory and grounds will be the leading civic events in the United States in 1912. The illumination promises to be the

most brilliant of its kind, and three miles . of the city's streets will be aglow with incandescents strung from post to post, while staff statues, flags and other decorations will adorn the main thoroughfares. In view of the fact that the exposition

is the largest entertainment ever planned in New Jersey, the railroads have granted rates from all points in the So great has been the interest during

the preparatory period that the committee has assigned special days to the different counties. There will be 200 exhibits, the prin-

cigal features of which will be the large number of displays where running machinery will demonstrate the most modern methods of manufacturing. Band concerts will be given afternoon and evening and there will be other interesting features of entertainment. Every effort has been put forth by

the committee to make the exposition one of the largest and most impressive of its kind, and a record-breaking attendance is atnicipated. Hefps a Judge in Bad Fix.
